### ***Allowable Subject Matter***

1. Claims 1-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the allowability recites at least in part: an optical module performing optical communication; a power converter converting system power into necessary power to be supplied to the optical module; and a power controller performing a switching process to supply the power supplied through the power converter to the optical module according to a power supplying control signal supplied while preventing the power supplied from the power converters from being supplied to the optical module when mounted on the racks of an optical communication system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
